

CAPBs® set 4 Pa test

Benefits

- Complete set for performing 4 Pa test in buildings
- Robust, modular system case S, suitable for box and shelf system Sortimo-BOXX
- Wireless, immediate transmission of the measurement data to your AFRISO measuring instrument, smartphone or tablet with Bluetooth® Smart technology
- Position-independent, temperature-compensated sensor technology for maximum precision in all measuring scenarios
- Free app for EuroSoft live for operation of all CAPBs® via smartphone and tablet. With pre-installed measurement menus for special applications and graphical representation of the measurement results

Application

If multiple heat systems using indoor intake air and ventilation systems are operated in a closed space, this can result in a hazardous low pressure. The 4 Pa test set, consisting of the sensor module pressure/temperature CAPBs® sens FP 10 with hose kit in the system case S, it is possible to check and document the low pressure limit value of 4 Pa.
