

Hydraulic separator for heating pump assemblies PrimoTherm®

Application

For distribution of the heating circuit water in sealed heating systems as per EN 12828 from the boiler to the heating pump assemblies PrimoTherm®.

Versions

	Part no.
Hydraulic separator for KSV 125 70 kW	77317
Hydraulic separator for KSV 125 160 kW	77323

Blue part no. = in-stock items

Description

Hydraulic separator for retrofitting boiler manifold KSV (without hydraulic separator).

Technical specifications

System connections

Boiler side	
70 kW:	Threaded socket G1¼ female
160 kW:	G2 female
Manifolds	
70 kW:	Union nut G1½, flat-sealing
160 kW:	G2 female

Flow

70 kW:	3 m³/h
160 kW:	7 m³/h

System pressure

Max. 6 bar
Polypropylene EPP

Operating temperature range

Medium: Max. 110 °C
