

## Hydraulic separator for heating pump assemblies PrimoTherm®

### Application

For distribution of the heating circuit water in sealed heating systems as per EN 12828 from the boiler to the heating pump assemblies PrimoTherm®.

### Versions

	Part no.
Hydraulic separator for KSV 125 70 kW	77317
Hydraulic separator for KSV 125 160 kW	77323

Blue part no. = in-stock items

### Description

Hydraulic separator for retrofitting boiler manifold KSV (without hydraulic separator).

### Technical specifications

#### System connections

Boiler side	
70 kW:	Threaded socket G1¼ female
160 kW:	G2 female
Manifolds	
70 kW:	Union nut G1½, flat-sealing
160 kW:	G2 female

#### Flow

70 kW:	3 m³/h
160 kW:	7 m³/h

#### System pressure

Max. 6 bar  
Polypropylene EPP

#### Operating temperature range

Medium: Max. 110 °C
