

# Flue gas analyser

### **Benefits**

- Large high-resolution display for optimum readability and and intuitive menu navigation, protected by scratch-resistant glass
- Pioneering "dual-mode concept": Intuitive one-hand operation via scroll wheel or touch display - sensitive even with work gloves
- Ready for all typical HVAC measuring tasks thanks to Bluetooth® connection to more than 35 sensor modules and sets of the CAPBs® system
- TÜV-tested measurement as per 1st and 44th BlmSchV (German Federal Immission Act)
- NO sensor can be retrofitted
- H2-compensated robust CO sensor (measuring range up to 10,000 ppm)
- Multi-memory: Combine up to six different measurements into a single measurement report (for example, full load measurement/partial load measurement or flue gas measurement and flow
- Data transmission via Bluetooth® or QR code to the AFRISO app EuroSoft® connect for on-site documentation
- 5 years warranty on O₂ sensor
- 7 years full warranty in connection with a service contract

# **Application**

Designed for flue gas measurements at oil, gas and pellets fired systems as well as for tightness tests at gas lines, for checking the connection pressure/flow pressure and the pressure loss. TÜV-tested measurements as per 1st and 44th BlmSchV (German Federal Immission Act) can be performed reliably and intuitively. Fast and easy Bluetooth® connection to more than 35 sensor modules and sets of the AFRISO CAPBs® make EUROLYZER® S1 the central controller for all HVAC tasks.
