Description

Complete, universal mounting kit for pneumatic tank contents gauges and level indicators. Can be used for tanks of up to 4,000 mm in height or diameter. Consisting of screw fitting with dual thread G½ and G1, reducer G1 x 1½ x 2. Standpipe in tank with balance chamber. PVC measuring line, 20 m with 30 nail cable clips, hose connector (4 x 4 mm) and mounting accessories. Suitable for use in flood hazard areas. Watertight up to 10 m water column. If no connection socket is available at an individual tank, it is recommended to use Euroflex.
